Access control that easily integrates into the modern world

TruPortal™ 1.5 delivers user-friendly operation while expanding features and functionality to meet more application needs

TruPortal 1.5

Effective, intuitive access control for today and tomorrow

Well-suited for small to mid-sized applications, TruPortal™ 1.5 represents the ideal solution for out-of-the-box access control that delivers full-featured options while being simple to install and operate without special training.

This next-generation TruPortal System is also built for modern demands and applications, complete with iPad®, iPhone® and Android smartphone "App" for remote-based management, 64-door/camera capability, simplified wizard-based installation, action triggers and more. TruPortal 1.5 is the flexible, reliable access control solution for today's applications.

Plus, TruPortal's browser-based functionality requires no server or software to install and it easily integrates with TruVision® surveillance recorders and cameras for complete video capabilities.

Rich features when and where you need them most

TruPortal 1.5 combines all the features of the previous version with convenient new functionality including a native iPad app to remotely monitor system activity and perform basic administrative tasks. iPhone or Android users can perform the most common command and control functions including video, reports and door commands direct from their phones.

iPhone App   **Android App**

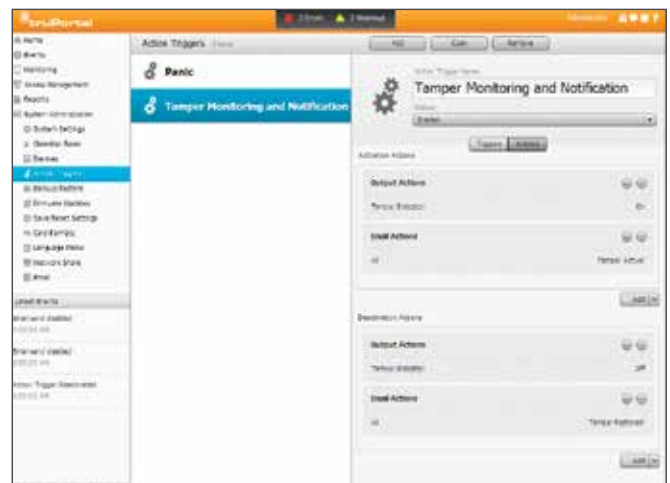

Web-browser-based operation

Access to wizards, tool tips, quick start guide and context-sensitive help for everyday tasks

Works with most browsers:
Internet Explorer, Chrome, Safari, Firefox

Multi-language*

Graphical diagnostic dashboard

**Intuitive report generation**

* English, Spanish, French, Portuguese, Dutch, Finnish, Italian, Turkish, Swedish and German

Action Triggers

Designed for easy access
to essential information

Featuring comprehensive tool tips, context-sensitive help and graphical diagnostics, TruPortal™ 1.5 features an intuitive user interface that makes operations even easier.

Clean, icon-based screens

User wizards with step-by-step instructions

Rich functionality for simple search, reports and schedules

Video integration with TruVision surveillance recorders

Hardware discovery function during initial and subsequent hardware installations makes set-up quick and easy.

Low total cost
of ownership

Not only does TruPortal 1.5 set a new standard in high-performance access control functionality, but it also helps reduce costs for an even more attractive solution offering.

No dedicated server greatly reduces up-front cost

Eliminates need for software installation and licensing

No application, operating system or database maintenance required

New IP PoE single door controller leverages existing IP infrastructure

FREE upgrades—no annual software licensing fees

Seamless
integration
for complete
coverage

TruPortal 1.5 is designed to be part of a multi-faceted security system, working effectively with additional components. This new version provides simple and intuitive video integration with access events, along with scheduled and manual data backup capabilities.

User-definable fields

Remote door control

Scheduling with recurring holidays

Reader groups and schedules

Enforced anti-passback

Flexible Wiegand reader choices to accommodate 3rd-party integration; including Assa Abloy and Schlage wireless locks

Powerful action triggers for If/Then functionality

The ideal solution
to meet growing needs

As requirements expand, TruPortal™ 1.5 easily accommodates future growth. Starting with the main system controller for up to 2 doors/4 readers, users can increase their coverage in increments of 1 door/2 readers using the newly released single-door IP-based controller. PoE IP-based capabilities mean no cable running required—TruPortal 1.5 plugs into existing infrastructure to be up and running quickly.

TruPortal 1.5 offers automation features for added convenience and security:

- Database backup at regularly scheduled intervals
- Action triggers that generate emails in response to critical events

Ordering Information

Base Systems

TP-SYS-2DE	TruPortal™ 2-Door Base System. Consists of a TruPortal System Controller installed in UL-listed enclosure w/integrated power supply/standby battery charger.
TP-SYS-BRD	TruPortal System Controller. For spare parts only.

Add-Ons

TP-ADD-2DE	TruPortal 2-Door Add-on Kit. Consists of a TruPortal 2-Door Interface Module installed in UL-listed enclosure w/4 AMP power supply.
TP-ADD-2D-BRD	TruPortal 2-Door Interface Module. Board only. For installation into an existing TP-ADD-2D, TP-ADD-2D2R or TP-ADD-4D.
TP-ADD-IO	TruPortal I/O Expansion Add-on Kit. Consists of a TruPortal 16 input, 8 output I/O Expansion Module installed in a UL-listed enclosure w/4 AMP power supply.
TP-ADD-IO-BRD	TruPortal I/O Expansion Module. Board(s) only. 16 inputs and 8 relay output (consists of 2 separate but interconnected boards). For spare parts or for installation into an existing TP-SYS-2D.
TP-ADD-1DIP new	TruPortal IP-Based Single-Door Add-on kit. Consists of TruPortal 1-door interface module installed in a UL-listed enclosure.
TP-ADD-1DIP-BRD new	TruPortal IP-Based Single Door Module. Board only.

Readers

TP-RDR-100A	TruPortal T-100 Series Reader (mini-mullion mount, Proxlite/HID,® 3 covers, 18"/45.7cm pigtail wire, Wiegand output)
TP-RDR-100B	TruPortal T-100 Series Reader (mini-mullion mount, Proxlite/HID,® 3 covers, 84"/214cm pigtail wire, Wiegand output)
TP-RDR-200A	TruPortal T-200 Series Reader (mini-mullion mount, Vicinity (ISO 15693)/Proximity (ISO14443), 3 covers, 18"/45.7cm pigtail wire, Wiegand output)
TP-RDR-200B	TruPortal T-200 Series Reader (mini-mullion mount, Vicinity (ISO 15693)/Proximity (ISO14443), 3 covers, 84"/214cm pigtail wire, Wiegand output)

Note: Backup battery must be purchased separately. *TruPortal supports Wiegand only input.

Accessories

TP-RDR-LRN	Dual-Frequency Enrollment Reader. Connects to PC via USB interface

Credentials

TP-CP-ISO-25PK	TruPortal Credential - HID® Prox ISO Cards - 25 Pack
